

## Journal 9/22

What is air made up of? What type of matter is it?

Sep 22-10:13 AM

### More about Matter

- All matter is made up of *tiny particles* that can't be seen w/naked eye
  - > *atoms*      *compounds*
  - > *molecules*      *subatomic particles*
- These particles are *always* moving *DEMO*
- The more energy they have the *more they move*
- Particles differ from one substance to another
