

Biology Warm Up 11/30/16 - 12/1/16**Clickers & Journal** Science Literacy Practice

Use the passage to answer the question. **Provide supporting evidence from the text.**

Suppose another set of 25 peony seeds had been included in Study 2 and these seeds had a storage temperature of 25°C and a germination temperature of 18°C. Based on the information provided, the number of seeds that would have germinated after being maintained for 30 days would most likely have been closest to:
