

3rd Quarter Electricity Team Research and Presentation/demonstration Projects

Pick one then check with me and see if it is still available.

Wind Energy _____

Solar electric (photovoltaics) _____

solar thermal for hot water heating _____

Solar for heating homes _____

Coal burning electricity generation _____

Natural gas (stove, refrigerator, hot water) _____,

Nuclear electricity Generation _____.

Hydro electric power (rivers) _____

Hydro electric power in an ocean _____

Fuel Cells _____

Thermoelectric effect _____

Solar Greenhouse _____
